## New Fiber Internet Company Begins Construction

Metronet is a fiber optic internet, TV and phone services company headquartered in Evansville, Indiana.

Metronet has begun the installation of fiber optic cable in Englewood mostly attached to existing Dayton Power and Light poles. For those areas where poles are not available, underground directional boring will be installed.

Actual residential service is not expected until after the first of 2020.

Residents may find colored markings in the right-of-way to identify other existing utilities to avoid conflict.

Metronet's website provides more detail and contact information.
